

RUN by SAM HECHT + KIM COLIN

emeco

FIRST LET'S MAKE THINGS THAT LAST.

The Emeco 1006 Navy Chair was first commissioned in the 1940s by the U.S. Navy for use on warships – the contract even specified that it had to be able to withstand torpedo blasts. Today our chairs are still made in the U.S.A., of 80% recycled aluminum, and are made by hand, by Emeco craftsmen using the original 77 step process. The world's best architects and designers collaborate with us to design chairs that are built and guaranteed to last a lifetime.

As we apply what we've practiced in the past, we are looking toward the future. We are on a mission to make a positive impact on the environment. Our goals are to use waste material in our products, use as little energy as possible in our manufacturing, generate a minimum of waste in the process, and build strong, durable, beautiful furniture that lasts through generations. We've been on the same mission since 1944 and we will continue to search for new ways to recover and utilize discarded materials and make products that last.

One for all.

RUN by SAM HECHT+KIM COLIN

Run is a family of tables, benches, shelves and daybeds that effortlessly finds balance in both indoor and outdoor landscapes suited for meeting, eating, learning, sharing and working. Made of responsibly selected materials and engineered to last, RUN is right for a multitude of uses at home, for hospitality and in the workplace.

In and Out.

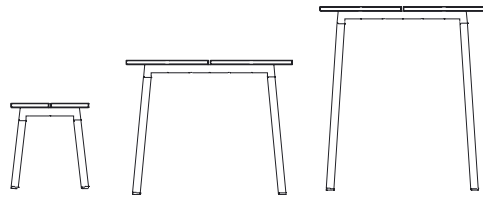

Tables and benches with tops in accoya wood and aluminum are approved for outdoor use.

Run your way.

ROUND TABLE

Reduced form. Geometric simplicity. Maximum function. Run bases and tops come in a multitude of sizes and materials that combine to create simple, built-to-last products to fit any application, indoors and out. Outdoor approved materials marked ✧.

"Run is shaped to acknowledge the benefits of being around others, so tables are welcoming and useful, purposefully made to work well with many of Emeco's existing chairs and stools, including the original Navy Chair."
Sam Hecht

Run side table with ash top. Run Daybed with ash top.

All Run tables and side tables are available as standing height.

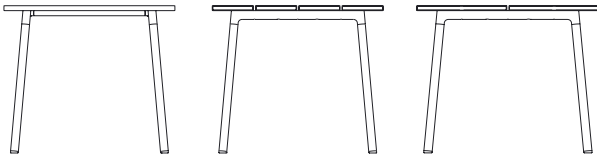

Run shelves are offered with planks in recycled aluminum or solid wood.
Aluminum and Accoya wood are suitable for outdoor use.

The daybed combines the solid wood tops and strong aluminum base that characterize Run with upholstery in fabric, leather or outdoor fabric. The modular design with individual cushions offers the flexibility to use part of the surface as a side table. The cushions are cleverly held in place by a wooden rod underneath the daybed.
