SISTEMA 150

Inspired by the grooved glass of Mazzoni and Scarpa from the 1930s, which was used to illuminate large surfaces in public spaces, the modular design of Sistema allows for endless combinations to create a bespoke lighting system. The Sistema Modular Lamp features 5 cast textured glass tiles in a stainless steel cage.

An integrated LED system makes the light more homogeneous and diffused. The modular design of Sistema allows for endless combinations to create a bespoke lighting system where handmade Murano glass elements harmonize with the sleekness of stainless steel, resulting in a sophisticated and contemporary aesthetic.

**VOLTAGE**
220-240 VAC
100-120 VAC x USA

**WATT**
42,5 W

**CCT**
4000K

**DELIVERED LUMENS OUTPUT**
4867 lm

**WEIGHT**
15 Kg

**TYPE OF LAMP**
strip LED 24 VDC

**DIMMABLE TYPOLOGY**
TRIAC

**EFFICENCY**
115 lm/W

**ENVIROMENT**
INDOOR

**DIMENSIONS**
17 x 4.50 x 150(h) cm
