SISTEMA 150 PENDANT

The lamp is made by one single module composed of cast textured glass tiles inside a stainless steel cage. The structure is essential and designed to contain all the LED lighting components inside.

The use of the characteristic grooved Murano glass is a reinterpretation of the lighting system used in Italy in the 1930s to illuminate large public spaces.

The Sistema collection represents the perfect blend of artisanal craftsmanship and cutting-edge design, resulting in a rational and refined product.

VOLTAGE

220-240 VAC
100-120 VAC x USA

TYPE OF LAMP

strip LED 24 VDC

WATT

42,5 W

DIMMABLE TYPOLOGY

TRIAC

CCT

4000K

EFFICIENCY

115 lm/W

DELIVERED LUMENS OUTPUT

4867 lm

ENVIROMENT

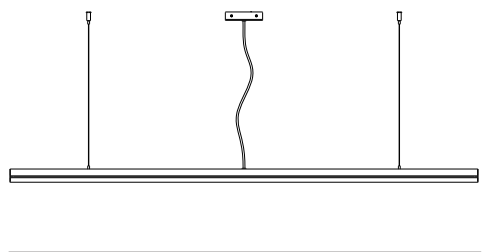

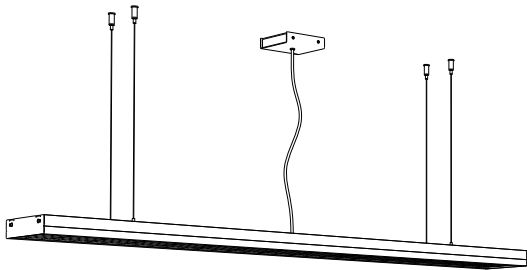

INDOOR

WEIGHT

15 Kg

DIMENSIONS

17 x 4.50 x 150(h) cm

150cm / 4' - 2/3
