

Reconnaissables par leur style singulier et admirables par la perfection de leur réalisation les meubles de Cristian Valdés sont devenus des références et des objets cultes très recherchés par les connaisseurs et amateurs de design. La chaise Model B est la déclinaison avec accoudoirs de la chaise originelle. Elle adopte le même mode constructif commun à l'ensemble de la collection. Ses courbes douces en font une assise très confortable et élégante dont le cuir naturel prendra une magnifique patine avec le temps.

Recognizable by their singular style and admirable by the perfection of their realization, Cristian Valdés furniture has become references and cult objects highly sought after by connoisseurs and lovers of design. The chair Model B is the natural variation of the original chair, with armrests. Like it, it adopts the same construction method common to the entire collection. Its soft curves make it a very comfortable and elegant seat, the natural leather of which will take on a magnificent patina over time.

The high quality steels used by Objekto are produced by very carefully selected French or Italian steel manufacturers.

#### **Stainless steel**

Stainless steel is highly resistant to corrosion, but like other steel types, it is not immune from the effects of oxidation under extreme conditions. Stainless steel must be kept clean and free from contaminants to achieve maximum corrosion resistance and aesthetic appeal.

#### **Care**

- Clean by using a soft cloth
- Never use cleaning abrasives, steel wool or polish
- Do not use chlorine based liquids on the steel as this will cause the steel to rust
- Keep the material dry

#### **Phosphated carbon steel**

Carbon steel is the original raw material used in 1957 for manufacturing the first Paulistano armchair. The carbon steel frame is phosphated. The phosphating process is a surface treatment done in order to stop the first main oxidation. Nevertheless, this frame will oxidize slowly with time, according to modernist precepts.

#### **Care**

- Clean by using a soft cloth
  - Never use cleaning abrasives, steel wool or polish
  - Do not use chlorine based liquids on the steel as this will cause the steel to rust
  - Keep the material dry
  - To avoid natural oxidation, clean the steel using a soft cloth impregnated with a special oil for steel ( we recommend using WD40™ oil )
- Once done, polish up by using a dry and clean cloth

#### **Powder coated steel**

#### **Care**

- Clean by using a soft cloth
- Never use cleaning abrasives, steel wool or polish
- Do not use chlorine based liquids

Our leather is vegetable tanned, semi-aniline or aniline. Its raw and natural surface allows the leather to breathe and offers excellent sitting comfort. The leather is full grain, which means that its natural surface structure has been preserved and all natural markings are visible. Natural markings are the hallmarks of the animal's active life and give the piece of furniture a unique sense of character.

#### **Care**

- Do not expose to direct sunlight
- Clean by using a soft cloth
- Do not use detergents, chemicals or fats

The canvas used to manufacture our covers are 100% cotton. It is rotproof, waterproof and stainproof for both indoor and outdoor use.

#### **Care**

- Clean with a soft brush to remove dust
- Before washing the cover refer to the instructions on the label sewed inside it

Woods originate from European sustainable forests.

#### **Care**

- Clean with a soft cloth to remove dust

Marble is a beautiful but delicate and porous stone. To prevent ring marks, use coasters under glasses etc. Always clean up spills immediately.

#### **Care**

- Dust the surface on a regular basis and wash the marble when needed with a cloth dampened with warm water
- Never use dusting sprays or abrasive cleaners on your marble
- To refresh the stone and protect it, we recommend marble polish
